RE: South Cavalcade RI/FS

Dear Mr. Wright:

Enclosed, please find two (2) copies of the Draft Remedial Investigation Report for the South Cavalcade Site. The Report is presented in three volumes, with Volume I containing the text of the RI Report and Volumes II and III containing the Appendices. Three sections of the RI Report; Section 6 - Soil Quality Evaluation, Section 7 - Groundwater Quality Evaluation, and Section 9 - Preliminary Public Health and Environmental Evaluation, as well as the Executive Summary, are undergoing revision and will be transmitted to you prior to February 1st. I apologize for the delayed submittal of these sections and I hope that receipt by February 1st will still allow for a productive meeting on February 12th in Dallas. Copies have also been expressed mailed to the TWC and CDM.

You will also note that the Toxicological Profiles have not been included in the Appendices. As these profiles will be identical to those currently being finalized for inclusion in the Texarkana RI Report, I thought it would be appropriate to include the profiles after they are finalized.
